RECOMMENDED COURSES AT UNT

TECM 4180: ADVANCED TECHNICAL COMMUNICATION
Technical communicators need to gather information, ensure that it is valid and credible, and present their findings and recommendations in a clear compelling way. Advanced Technical Communication covers how to effectively gather information through interviews, surveys, and secondary research, and how to organize that information for maximum impact.

TECM 4400: ADVANCED INFORMATION DESIGN
An advanced understanding of web design, web applications, and user experience is an invaluable skill. Advanced Information Design provides an in-depth look on how to write, design, develop, and test information for electronic media using industry-standard software.
