RECOMMENDED COURSES AT UNT

TECM 2700: TECHNICAL WRITING
Every profession, regardless of the field, requires solid communication skills. Technical Writing covers the principles of effective and professional communication, and provides an understanding of the various genres, styles, and designs of technical documents. In this class, students will learn how to identify different audiences, purposes, and situations for professional and technical writing and create usable technical documents that can be shown to potential employers.

TECM 4100: WRITING PROPOSALS
Proposals are key to securing professional and academic resources. Writing Proposals is an advanced study of technical writing that provides students with a foundation in grant seeking and persuasive writing. Students will learn each component of the proposal and grant writing process, including identifying business opportunities or funding streams, and understanding the review process.
